

Aeroponic Units

Basic kit includes: -

- AquaClear Powerhead 301 pump @ \$35.50
- Black tub (50L) with lid @ \$40.00
- Grey plastic stand (590 high x 650 x 360) @ \$24.20
- Tub outlet and screen (drainage) @ \$12.85
- Reservoir @ \$27.50

Two sprinklers – Two pots

Ideal for the grower who requires slightly larger plants than the usual aeroponic setup. Two offset holes in the tub provide maximum growing area over the tub lid and maximise the effectiveness and coverage of the 180° sprinklers.

- Two 'dan' sprinklers @ \$17.90
- Irrigation to suit @ \$10.00
- Two lattice pots with clay media @ \$3.60

TOTAL PRICE + LABOUR (\$15) \$ 186.50

One sprinkler – Four pots

A single 360° sprinkler in the center of the tub will feed four smaller 'sea-of-green' style plants. The most popular style of unit due to the speed that the plants grow and mature.

- One 'dan' sprinkler @ \$8.95
- Irrigation to suit @ \$5.00
- Four lattice pots with clay media @ \$7.20

TOTAL PRICE + LABOUR (\$15) \$ 176.00

NB: Customers are free to mix and match these units to their requirements.

Additional pots with clay media are \$1.80 ea

Additional sprinklers are \$8.95 ea

Upgrading to a larger pump capable of running several aeroponics units simultaneously will cost an additional \$ 80.45

Special irrigation requirements can be arranged – prices worked out upon consultation

400 Watt light complete kit

Three aeroponics tubs can be arranged in a square frame of 1 metre x 1 metre, so for this type of setup, light can be supplied by a 400 Watt indoor light.
