

HYDRO TANK

INSTRUCTION MANUAL

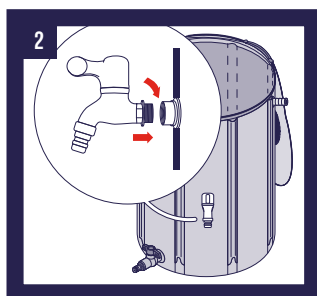

HOW TO ASSEMBLE YOUR HYDRO TANK

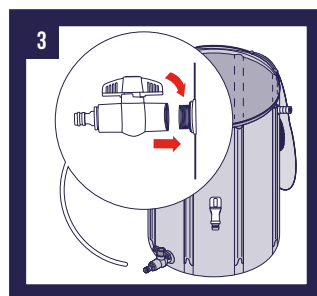

Insert the overflow pipe with one washer, into the hole at the top of the **Hydro Tank**.

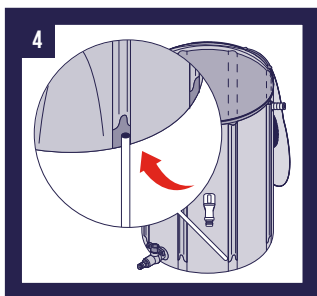

Place the second washer and screen onto thread as pictured. Tighten fully.

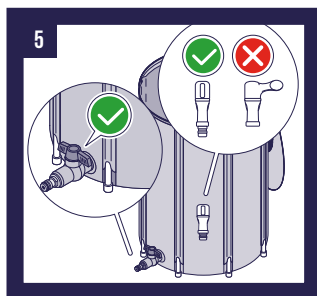

Install faucet in position and tighten.

Install the drainage valve in the corresponding position and tighten it.

Insert the support rods into the sleeve openings at the bottom of your **Hydro Tank** and move it all the way up.

Make sure that the spigot and the faucet are both closed.

Your **seaHawk Hydro Tank** is now ready to use.

- The filter mesh on top of your **Hydro Tank** allows for breathability and can also be used for a quick fill.
- The lid on your **Hydro Tank** can be unzipped for easy access.
- After a period of use, it is recommended to clean your **Hydro Tank** to ensure the longest possible service life.
- Clean using a soft brush.
